

How has Malawi reformed its energy sector?

Recently, Malawi's energy sector has undergone significant reforms, including the unbundling of the national utility, the Electricity Supply Company of Malawi (ESCOM), and the establishment of the Electricity Generation Company of Malawi (EGENCO).

How does Malawi use its energy?

Malawi gets over its total energy from oil, which is fossil fuel. We depend on this fuel to run our vehicles, generators, power industry and manufacturing, and provide us with electricity in the absence of hydro power. Petrol and diesel powers many of our municipal transportation fleets and the trucks that deliver goods to markets.

Does Malawi have an integrated energy policy?

Malawi has not had an integrated energy policy (IEP) since attaining political independence from Britain in 1964, with which to guide developments in the energy sector and to maximize their contribution to national economic growth.

Where can I find information about energy in Malawi?

Ministry of Natural Resources, Energy and Mining, Department of Energy Affairs, Capital House, City Centre, P/Bag 309, Lilongwe 3.
