Gregory King is the Managing Director of TSK Energy Solutions LLC, a Minority Business Enterprise (MBE) focused on delivering energy innovations and job opportunities to ...

In the azure waters of the Mediterranean, Malta is orchestrating a remarkable transformation-a shift towards sustainable energy solutions that harness the power of renewable technologies.

As part of another EU twinning project, NEEMO, which ran for four years until 2023, Malta has been able to significantly boost its research into electric mobility and clean energy.

At TSK Energy Solutions, Mr. King's work is focused on the application of IOT, network control systems and Artificial Intelligence (AI) in next generation building automation systems. This work includes advance lighting ...

Committed to sustainability, Malta's technology ensures a stable energy supply, providing long-term flexible and cost-effective electricity storage as well as essential network services. A large-scale 100 MWp plant in Malta stores up to 1 GWh of solar and wind electricity, converting variable renewable energy into constant on-demand power ...

TSK, a benchmark in the energy transition and decarbonisation of industry. TSK has been collaborating in the energy transition for more than 15 years offering services and technology that contribute to a more sustainable development

In Africa, Europe and LATAM, TSK has developed more than 7,000 km of gas and oil pipeline projects in high-pressure transport networks. Of these, the strategic importance of the EMPL and MEDGAS projects to guarantee the supply of gas to Spain from the Algerian fields should be significantly highlighted.
