Who is Mercuria Energy Group?

Mercuria Energy Group Ltd. is a Cypriot -domiciled Swiss multinational commodity trading company active in a wide spectrum of global energy markets including crude oil and refined petroleum products, natural gas (including LNG), power, biodiesel, base metals and agricultural products.

What makes Mercuria unique?

A synergy for success. Mercuria's unique business model stands as a powerful engine driving our leadership in the energy transition. It seamlessly blends three core areas of expertise: Physical Commodity Trading: We expertly navigate the complexities of global trade, optimising supply chains and rebalancing markets for efficient commodity flow.

How diversified is Mercuria?

Mercuria is geographically diversified, operating in more than fifty countries and with three major trading regions Europe, Asia Pacific, and the Americas. The world is dynamic, and things change all the time. Our job is to react to circumstances and figure out how to optimize the energy system now and for the future.

How many people does Mercuria employ?

We employ over 1100 people of more than 60 nationalities and generate revenues of over \$170 billion. Learn more about our activities in each of our core regions. Mercuria is committed to contributing to a better energy system.

Why is Asia Pacific important to Mercuria?

The Asia Pacific region has played an important role within Mercuria since the very beginning and is a cornerstone of our trading business and for future investments. Based in Geneva, Switzerland since 2004, Europe has been Mercuria's main hub since the company was founded.

Did Mercuria buy JPMorgan?

In 2014, Mercuria bought part of JPMorgan's physical commodities trading business for a reported US\$3.5 billion. Magid Shenouda, the former co-head of commodities trading at Goldman Sachs Group Inc., joined Mercuria as a shareholder, global head of trading and deputy CEO.

MN8 Energy has entered a strategic collaboration with Mercuria to explore commercial opportunities for future sustainable, affordable and reliable energy systems. The investment will facilitate the ongoing growth of MN8's portfolio across solar, storage and electric vehicle (EV)-charging projects.

Mercuria's purpose is more than just trading; it's about unifying energy markets to support both current needs and a sustainable future. The global energy landscape demands dependable, cost-effective and environmentally responsible solutions.

Mercuria energy American Samoa

Mercuria's electricity and natural gas efforts encompass trading, optimization and services at all liquid hubs in North America. Pipeline capacity, storage, tolls and asset management agreements provide opportunities for arbitrage while fundamentally supporting our client-facing businesses.
