

During a press conference held late in the morning on Thursday 29 June, Marie-Pierre Gramaglia, Minister of Public Works, the Environment and Urban Development, presented two aspects of ...

Monaco has joined forces with France to establish a large solar park, representing a significant advancement towards its sustainable energy ambitions. Situated in France, this photovoltaic park will harness solar energy to produce clean electricity for Monaco, decreasing its dependency on fossil fuels and lowering its carbon emissions

Monaco Renewable Energy has announced the acquisition of five new photovoltaic parks which will cover about 12% of the Principality's electricity consumption. Since the government began plans to transition to ...

"MER"s goal is for Monaco to become one of the first states to have 100% green electricity production capacity, equivalent to the consumption of its territory," underlines Marie-Pierre Gramaglia, Counsellor of the Ministry of Equipment, Environment, and Urban Planning.

Monaco Renewable Energy has announced the acquisition of five new photovoltaic parks which will cover about 12% of the Principality's electricity consumption. Since the government began plans to transition to cleaner energy and achieve energy autonomy by 2025, it has been implementing a mix of technologies including wind, water and solar to ...

Situés en Cote d'Or, en Haute Vienne, dans les Landes et le Gard, ils totalisent une production de 65 000 MWh / an, soit environ 12% de la consommation électrique de la Principauté de Monaco. Fin 2021, ce sont ...

Situés en Cote d'Or, en Haute Vienne, dans les Landes et le Gard, ils totalisent une production de 65 000 MWh / an, soit environ 12% de la consommation électrique de la Principauté de Monaco. Fin 2021, ce sont donc 15 parcs photovoltaïques que M.E.R. portera ...

Monaco has partnered with France to build a massive solar park, marking a major leap towards its goal of sustainable energy. The photovoltaic park, located in France, will utilize the sun's ...

To support the Principality's transition towards energy independence by 2025, in 2017 the Prince's Government and SMEG\* joined forces to create M.E.R. To best cover the Principality's consumption curve, a targeted mix of technologies has ...

Monaco has partnered with France to build a massive solar park, marking a major leap towards its goal of sustainable energy. The photovoltaic park, located in France, will utilize the sun's power to generate clean

electricity for Monaco, reducing its reliance on ...

This website is an interactive map that allows users to easily identify every roof in Monaco, its potential solar resource, the exploitable area on which photovoltaic panels could be installed, and the possible annual electricity production. This means that residents can find out the solar capacity of their building.

To support the Principality's transition towards energy independence by 2025, in 2017 the Prince's Government and SMEG\* joined forces to create M.E.R. To best cover the Principality's consumption curve, a targeted mix of technologies has been identified by the Prince's Government, including solar, wind and hydropower.

"MER's goal is for Monaco to become one of the first states to have 100% green electricity production capacity, equivalent to the consumption of its territory," underlines Marie-Pierre Gramaglia, Counsellor of the Ministry of ...

A giant solar power station has been inaugurated on the roof of Monaco's Grimaldi Forum, marking a significant milestone in the Principality's energy transition. Eventually, electricity generated from the station will be ...

A giant solar power station has been inaugurated on the roof of Monaco's Grimaldi Forum, marking a significant milestone in the Principality's energy transition. Eventually, electricity generated from the station will be used to power the new eco-district.

During a press conference held late in the morning on Thursday 29 June, Marie-Pierre Gramaglia, Minister of Public Works, the Environment and Urban Development, presented two aspects of Monaco's investment in solar power: a solar resource map for the Principality and the launch of a joint venture by the Prince's Government and SMEG to ...
