

Intellenergy's mission is to help solve the Earth's climate problems using a mixture of advanced energy systems and artificial intelligence techniques. We are a dedicated group of experienced engineers and scientists at the leading edge of science and technology. We use our unique skills to solve problems solving skills to produce world-class solutions. Below is

Green EcoEnergy Group is a recognized leading renewable energy solutions provider in Myanmar. We have years of experience in developing renewable energy solutions, project ...

Myanmar Eco Solutions (MES) is a renewable energy focused Myanmar company based in Yangon which serves customers across the renewable energy value chain. With a simple aim to serve affordable sustainable energy access to the rural population since its inception, MES business emphasis has always been towards a more impact oriented social ...

Sigenergy has entered into a landmark agreement with Trakia MT Ltd., a leader in Bulgaria's solar energy sector, to supply an additional 10 MWh of cutting-edge energy storage solutions, bringing their total combined storage capacity to 20 MWh. [Learn More](#)

Solar inverter and energy storage solutions provider, Sungrow, unveiled that its 1500V string inverter solution has been adopted in Myanmar's recently launched 20-MW Taungdaw Gwin solar project. The Taungdaw Gwin project is run on an independent power producer (IPP) and build-operate-own (BOO) basis, and it is expected to generate 45 GWh of ...

Solar inverter and energy storage solutions provider, Sungrow, unveiled that its 1500V string inverter solution has been adopted in Myanmar's recently launched 20-MW Taungdaw Gwin solar project. The Taungdaw Gwin ...

IES (Intelligent Energy Solutions) is a subsidiary of NTCC (National Tri-generation CHP Company) based in Riyadh. IES is the provider of rental and sale of equipment's offering a broad spectrum of highest quality of services related to residential, commercial and industrial projects in Saudi Arabia. IES provides a comprehensive range of ...

Applications of PEM Fuel Cells. IE-DRIVE(TM) is Intelligent Energy's (IE) latest high-power hydrogen fuel cell system. Utilising our patented evaporatively cooled (EC) technology, our fuel cells for hydrogen powered vehicles deliver compact, modular systems with fewer components, improved reliability, and reduced system costs. IE have developed two versions of the IE ...

To accelerate the process, SPM is leveraging Pact's lengthy history in Myanmar and GEAPP's extensive

# Myanmar intelligent energy solutions

international alliance to develop a Myanmar-focused renewable energy community. The result: an unlikely ...

Supported by The Rockefeller Foundation and managed by Pact, Smart Power Myanmar connects economically viable and reliable energy solutions (such as renewable energy mini-grids) to demand...

Green EcoEnergy Group is a recognized leading renewable energy solutions provider in Myanmar. We have years of experience in developing renewable energy solutions, project management, innovation, finance options & helping the development of the local industries.

Smart Power Myanmar has been a leader in wide-scale use of on-grid and off-grid electrification since 2019. Beginning in 2023, the project partnered with The Global Energy Alliance for People and Planet to catalyze solar finance for Myanmar's commercial and industrial small and medium-sized enterprises.

Sigenergy and Amber Light have partnered to address energy issues in Myanmar by signing a Memorandum of Understanding (MOU) to distribute SigenStor storage systems at Sigenergy Day Myanmar 2024. The event highlighted success stories and reinforced both parties' commitment to expanding the use of renewable energy in Myanmar.

In order to achieve the Government of Myanmar's electrification goals, the energy market faces a golden opportunity to combine centralised and decentralised energy into an integrated, intelligent and interactive energy ...

As part of ongoing efforts to bring electricity to every household and business in Myanmar, Smart Power Myanmar, a national platform with a mandate to advance a modern energy ecosystem, released a comprehensive Market Assessment that for the first time sheds light on the potential for distributed energy solutions in Myanmar, and helps identify ...

Our solutions are suitable for various applications including remote environments such as mountains, valleys, islands, deserts and plateaus. TowerXchange: You have a vast experience providing renewable energy solutions to power telecoms infrastructure in China. What are some of the main challenges that towercos are facing across the country?
