

Nadara energy Samoa

What makes Nadara unique?

Nadara's strength comes from our wonderfully diverse people, proud moments, and pioneering initiatives, combining to give us a history that empowers our present and elevates our ambitions. Discover how two of Europe's sector-leading renewable energy generators, Renantis and Ventient Energy, came together to form Nadara.

Is Nadara operating at scale?

Toni Volpe, CEO of Nadara, said: "At Nadara we are already operating at scale. Our new combined entity is one of the largest independent renewable energy companies in Europe and gives us the flexibility and agility to scale even more efficiently.

How much CO2 does Nadara emit per visit?

2024: We combine and become Nadara, one of the largest renewable independent power producers (IPPs) in Europe with a team of over 1,000 talented employees, an installed capacity of 4.2 GW, and an 18 GW pipeline. This page emits around 0.21g of CO2 per visit. Find out more on .

Who is Nadara - bluefloat energy JV for offshore?

The Nadara - BlueFloat Energy JV for offshore participated in the Offshore Wind Talent Academy, sponsored by AERO Associazione delle Energie Rinnovabili Offshore and ELIS. The objective of this initiative is to create a pool of specialised and skilled young professionals who can support the development of offshore wind farms in Italy.

What is Nadara's long-term strategy?

Nadara, Europe's largest independent onshore wind producer, announces the new combined entity's long-term strategy, focused on scaling up and growing to deliver an 18GW development pipeline over the next 10 years, while maximising the value of its existing operating portfolio for stakeholders.

Nadara exists to build a better future for all by powering people's everyday lives with care. We develop, design, construct and operate onshore wind farms, solar PV plants, floating offshore wind farms and energy storage facilities globally.

A new office for the BlueFloat Energy | Renantis Partnership was opened in Edinburgh this week [Wednesday 29 November] by the Scottish Energy Minister, strengthening the Partnership's position at the forefront of floating offshore wind development in Scotland, and creating a hub from which it will develop its UK offshore wind pipeline.
