

The OPEC Fund's \$25M loan will help construct a 10MW solar plant, extending transmission lines to connect cities and provide access to affordable and clean energy for over 750,000 people in Niger.

The Solar Projects will be linked to the South-Central area of Niger's electricity grid, with plans to interconnect it with the Western grid zone, serving Niamey, by 2026 through a project funded by the World Bank.

The OPEC Fund's \$25M loan will help construct a 10MW solar plant, extending transmission lines to connect cities and provide access to affordable and clean energy for over ...

RANAA will support the development of the energy sector through the construction of three solar plants in the Maradi, Dosso and Diffa regions. With a total ...

Niger's Ministry of Petroleum, Energy and Renewable Energies is launching a call for expressions of interest for the construction of a 50 MWp solar photovoltaic plant. The plant will be built on the Gourou Banda plateau, near the Nigerien capital Niamey.
