

The solar PV will supply St. Kitts with 30 - 35% of the annual electricity demand utilising sustainable, solar energy with zero emissions. The solar and storage system will replace over 4,000,000 gallons of diesel per year.

Leclanché, Solrid, and MPC Energy Solutions began construction on a solar-plus-storage project in St. Kitts and Nevis. The project involves pairing a 35.6 MW solar PV farm with 44.2 MWh of lithium-ion battery storage.

Construction has begun on a solar-plus-storage project on St. Kitts & Nevis, backed by Leclanché, Solrid and MPC Energy Solutions.

Groundbreaking day on St. Kitts! Shovels in the ground to mark the start of site preparation work for the Caribbean's largest solar energy production and energy storage plant being built by Leclanché.

The solar and battery storage project represents a giant step forward in the government's efforts to ensure a clean, safe and affordable energy future for our country. This project offers many benefits for our residents, businesses and the millions of tourists who visit St. Kitts and Nevis each year."

The Project, scheduled for completion in 2025, will provide Sainstt Kitts with 35.7 MW of solar capacity and 43.6 MWh of battery storage for the delivery of clean, renewable, and reliable energy for 25 years.

In September 2019, the Federal Government in collaboration with SKELEC signed an agreement with Leclanché SA - one of the world's leading energy storage companies based in Switzerland - to construct the largest solar generation and energy storage project in ...
