

Why is solar energy important in South Sudan?

As characterised by ample sunshine with strong solar power potential, South Sudan remains as one of key destinations on African continent for solar energy investment. In addition to this, it has been documented that evolution of solar PV is of great significance in South Sudan.

How long does solar energy last in South Sudan?

Proponents of solar energy argue that a solar system can produce reliable electricity for about 25 years. Having recognised solar energy potential, South Sudan is expected to put more emphasis on development of solar energy sector as part of its fight against energy poverty and economic diversification.

How solar energy can transform South Sudan's economy?

A solar energy can also be transformative to South Sudan's economy. For example, solar energy is affordable, cleaner and last longer as compared to energy from diesel-powered generators because generators need diesel to burn and they also need to be replaced after few years.

Where can I install OneStep solar sets?

OneStep.Solar sets you can install... You can install our sets on a balcony, wall, railing, or in the garden. Why OneStep.Solar sets? Efficiency for decades Increased energy production and enhanced durability, thanks to innovative module and microinverter technologies from industry-leading manufacturers.

Does South Sudan have a fight against energy poverty?

The good news is that South Sudan has already started its fight against energy poverty and one evidence for that is the ongoing construction of Nesitu 20MWp PV Solar +35MWh BESS power plant at Nesitu, Juba.

For two years, EarthSpark has been working hand-in-hand with SunGate Solar, the longest running solar installation company in South Sudan, to plan and launch the country's first solar-powered community-level microgrid.

We are here to ensure your path to solar energy is straightforward and hassle-free. Whether you need advice on choosing the right solar set or have questions about installation, we are just a ...

We are here to ensure your path to solar energy is straightforward and hassle-free. Whether you need advice on choosing the right solar set or have questions about installation, we are just a message away.

"Variable Renewable Electricity (VRE) plus-storage projects are in the planning phase in South Sudan including a 20 MW solar park coupled with a 35 MWh storage system. 78 "In 2021, South Sudan installed a solar rooftop-diesel system for the Upper Nile University of ...
