

Papua New Guinea solar cctv tower

Who is solar energy Papua New Guinea?

We are Papua New Guinea's leading solar energy company, providing high quality solar services for your home or business through renewable energy. WHY USE SOLAR? Despite huge popularity in the rest of the world solar power has yet to take off in PNG.

Is Papua New Guinea a good place to build a cell tower?

The Karawari river valley in Papua New Guinea is not, from a business perspective, an obvious place to build a cell tower. The remote region is home to a fractured community of 16 villages and tribal groups that include approximately 15,000 people.

Are cell towers legal in Papua New Guinea?

Much of the land in Papua New Guinea is legally owned by its traditional guardians, and over the years ancestral boundaries have blurred -- especially along natural breaks in the landscape such as hills, which happen to be the best locations for cell towers.

Why should you use solar power in PNG?

WHY USE SOLAR? Despite huge popularity in the rest of the world solar power has yet to take off in PNG. This is for a variety of reasons but with recent developments in the PNG energy market it's now safe and legally compliant to use solar for certain applications.

Does Papua New Guinea have a country Factsheet?

Specifically for Papua New Guinea, a country factsheet has been elaborated, including the information on solar resource and PV power potential, country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.
