For investors looking to play alternative energy, Forbes Advisor has chosen wind power stocks that we believe provide a unique opportunity for investors. The following companies all operate at reasonable scale and provide an opportunity to invest in a sustainable future. *All data is sourced from StockRover, current as of May 31, 2024.

Who is Algonquin Power & Energy?

Algonquin Power &Energy (NYSE: AQN) is a key player in the North American renewable energy and utility sector. It specializes in hydroelectric,wind,and solar power,and its essential operations continue to showcase resiliency.

What makes a 'wind stock'?

As with many alternative energy investments,there's no bright lineas to what makes a "wind stock" as opposed to a company that does other things and merely dabbles in this area. Consider General Electric (GE),which is undoubtedly a big player in the wind sector,as its onshore wind segment generates billions each year.

Is GE a wind stock?

While those revenue numbers are larger than the entire operations of a few stocks on this list and the stock is incredibly liquid and widely held,the reality is that wind is not a significant driver of GE's success as a corporate entity. In other words,while stocks like GE may be more prominent or easy to trade,they are not truly "wind stocks."

Is Greencoat UK wind a FTSE 250 company?

A renewable energy company of significant size,SSE employs around 10,000 individuals. Greencoat UK Wind is a listed renewable infrastructure fund,invested in operating UK wind farms,which are generating income. The fund is a constituent of the FTSE 250.

Should you buy Wind stocks?

Not only does a presence in these indexes show leadership in the wind industry, but it also indicates institutional interest from investors looking to buy into these stocks in order to play these themes. Market capitalization of at least \$2 billion. Size isn't everything, but scale does matter.
