

Power generation solar panel accessories

What are solar accessories?

Solar accessories can provide reliable, renewable energy at home or on the go and range in size and functionality based on your needs. If you need to power something that requires a lot of energy, like an RV, you'll need to pair your portable panels with a small generator or battery.

What solar accessories do I Need?

The solar accessory you need will vary based on what you are trying to power. Here are some different types of solar accessories to choose from: If you're looking to spend extended periods off-grid, perhaps on a camping or road trip, portable solar panels can help you stay powered reliably.

Are solar accessories a good option for generating power?

Solar accessories can be an excellent option for generating power. Whether you're an avid camper, want to power your outdoor lights, are taking a cross-country road trip, or want to make sure your phone has enough charge to last the whole day, there's likely a solar gadget for you.

What does a portable solar panel kit include?

A portable solar panel kit will generally include the panels, adapter cables, solar connectors, a solar generator or battery, an inverter, a PWM or MPPT solar charge controller, and mounting brackets. You may even be able to connect to an app via wifi or Bluetooth to track the performance of your portable solar panels.

Which products do I need for a 12V Solar System?

For a 12V Solar System, you will need high quality solar components designed specifically for 12v DC applications. We offer various products such as cables, fuses, mounting, 12v lighting, and inverters. If you require a specific product, please let us know as we have a wider range available in store.
