

North Macedonia's economy minister, Kreshnik Bektashi, has announced 82 investors have submitted bids for the construction of two solar projects with a total generation capacity of 35 MW that the ministry tendered in early June.

The North Macedonian government wants to award a 15-year PPA through the procurement exercise. Selected developers will be granted a feed-in premium tariff paid on top ...

North Macedonian electricity producer ESM has launched a tender for the design, procurement, construction, commissioning and handover of two solar plants totaling 30 MW.

The Government of North Macedonia has launched tendering for the construction of solar photovoltaic (PV) power plants with a combined capacity of 35 MW on state land, according to a press release from the ...

The North Macedonian Parliament adopted a new Energy Law in May 2018 ("Energy Law"), harmonizing the energy legislation of North Macedonia with the EU Third Energy Package. This Energy Law introduced premiums ("Premiums") to operate alongside the previously available preferential tariffs ("Feed-in Tariffs") as a support measure for ...

EVN Macedonia said the unit with two-sided panels would produce 2.1 GWh per year. The project is part of the Ministry of Economy's program for premiums for photovoltaics on private land. The bifacial photovoltaic power plant of EVN Macedonia has 4,416 panels of 335 W each and an annual output of 2.1 GWh.

The North Macedonian government wants to award a 15-year PPA through the procurement exercise. Selected developers will be granted a feed-in premium tariff paid on top of the electricity price.

double the current installed solar PV capacity in North Macedonia. Once fully operational, the Project is expected to produce nearly 48 GWh per year [REDACTED] of electricity and

Together with Eco Green Energy's premium class PV modules Atlas 550W BF double glass KTM is helping project owners to achieve maximum efficiency and power output from installation. Challenge North Macedonia sets new records in renewable ...
