

Price of 300w solar panel in Singapore

How much does a solar panel installation cost in Singapore?

The cost of installation will vary based on several factors, including the number of solar panels installed. The cost of a solar panel installation in Singapore ranges from S\$15,000 to S\$38,000 or more. That said, a good estimate will be S\$20,000 as most residential solar panel systems are around 10 kWp (S\$2,000/kWp).

How much do solar panels cost for a bungalow?

Bungalows: Rooftop solar systems for bungalows would usually be around 50 solar panels, equating to a 20 kWp system with an installation area of 110m². The average solar panel price for bungalows would be around S\$36,000 due to the high number of panels and large installation area.

Where to buy solar panels in Singapore?

As a reputable solar panel supplier in Singapore, TrinaSolar is recognised for its innovative and high-quality solar panel products. Here at GetSolar, we carry the Vertex S+ Dual Glass Monocrystalline Module, which despite its compact size, delivers impressive performance, reaching up to 445 Watts with a remarkable 22.3% module efficiency.

Here are the solar panel brands we proudly carry: JinkoSolar offers a diverse range of solar panel series, each named after animals such as the Eagle, Swan, Cheetah, and Tiger.

Can solar panels be installed on a roof in Singapore?

Solar panels can be installed on almost all roofs. That said, there are certain roof types that require additional materials for installation -- such as racking and mounting systems. Meanwhile, your roof's material will determine the mounting mechanisms needed for your installation. In Singapore, roofs are usually tiled, metal or concrete.

How much does a solar panel system cost?

The cost of your solar panel system would be S\$18,000 and is sufficient for average energy consumption of 890 kWh per month. Semi-detached Houses: You may be able to install around 30 solar panels or a 12 kWp system which will be able to cover an average monthly energy consumption of 1,182 kWh. This will cost around S\$24,000 for the entire system.
