Funding is Part of a \$1 Billion Effort to Deploy Solar and Battery Storage to Puerto Rico's Most Vulnerable Residents, Helping Increase Resilience and Lower Energy Bills for up to 40,000 Households

3 ???· SAN JUAN, Puerto Rico -- The U.S. Department of Energy said Thursday that \$365 million is available to install solar and battery storage systems in homes and healthcare centers across Puerto Rico.

4 ???· The \$365 million investment is part of DOE's new Programa de Comunidades Resilientes, funded by the Puerto Rico Energy Resilience Fund (PR-ERF). The program will provide up to \$190 million for installing solar panels and battery systems in common areas of public housing and privately owned, federally subsidized multi-family housing.

DOE selected three qualified solar companies with an existing workforce in Puerto Rico as well as five qualified nonprofits and cooperatives across the region to begin award negotiations for a total of \$440 million to deploy residential solar systems to vulnerable Puerto Rican households.

3 ???· In recent years, the U.S. government has announced millions of dollars for other projects including solar farms and the installation of solar panels on low-income homes in Puerto Rico. The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a ...

4 ???· The \$365 million investment is part of DOE's new Programa de Comunidades Resilientes, funded by the Puerto Rico Energy Resilience Fund (PR-ERF). The program will provide up to \$190 million for installing solar ...
