

About AESC AESC is a global leader in the development and manufacturing of high-performance batteries for zero-emission electric vehicles and energy storage systems.

Automotive Energy Supply Corporation(AESC) is a manufacturer of lithium ion batteries for electric vehicles established 2007 as a joint venture between Nissan,and Tokin Corporation. Since 2018 Chinese company Envision is a strong partner in the joint venture.

"AESC is building an incredible global team to meet the needs of the market and our customer base," said AESC CEO for U.S. and Europe Knudt Flor. "As our organization grows in the United States and Europe, we are expanding our leadership team to meet challenges and continue making the highest quality batteries in the world," he added.

Founded in Japan in 2007 and headquartered in Yokohama, AESC has been building manufacturing capabilities around the world in the U.S., U.K., Europe, Japan and China to serve key markets and leading customers locally for over 14 years.

"AESC is excited to welcome Kai,Alpay,Songtao and Rajto our global leadership team. Each of these leaders brings a wealth of experience and a deep understanding of their respective functions," said AESC Group CEO Shoichi Matsumoto.

AESC is expanding its footprint in the United States with gigafactories in Kentucky, South Carolina, and Tennessee to meet the growing demand for EV and BESS batteries and strengthen its presence in the North American market.
