Reach an engaged target audience and position your brand alongside authoritative peer-reviewed research by advertising in Historical Journal of Film, Radio and Television. The Historical Journal of Film, Radio and Television explores the history of audio-visual mass media and considers its impact on political and cultural history.

How does television output affect teaching and research in television documentary?

John Corner in his book *The Art of Record* (1996), describes the impact of the difficulty of obtaining television output on teaching and research in television documentary. "The difficulty of (legally) obtaining primary texts for screening and study has limited the place of documentary on the syllabus. This

How did radio technology start?

The idea of "radio" technology began to germinate. Oliver Lodge developed a relatively practical detector for radio waves (a vial filled with metal filings, which he called a "coherer"), but did not patent the idea (U.K. 1894).
