

What is a micromobile radio?

These compact radios bring reliable and versatile communication to overlanders, off-roaders, farmers, RV'ers, and others. The MicroMobile is compatible with all Midland FRS/GMRS walkie talkies. Known for their reliable and versatile communication, the MicroMobile is a favorite among overlanders and farmers.

Where are micron microphones used?

The extensive range of Micron UHF and VHF radio microphone systems is used worldwide, in television studios, in ENG and outside broadcast, for location sound recording, and in theatre's and conference venues - with products in continuous service for over twenty years.

Who makes micron microphones?

Manufactured by Micronwireless Ltd, a company specialising solely in wireless microphone technology, Micron high-performance systems are renowned for their sound quality, rugged construction and reliability in the field.

Which micromobile antenna is best?

Pick the best MicroMobile option for you. The MXTA25 3dB Gain Ghost Antenna doubles signal output. The compact design of the Ghost antenna ensures a solid connection to your vehicle and clear communication when you're on the road. At only 3.5" tall, the low-profile antenna blends in so well to your vehicle, you won't even know it's there.
