

# Recommendations for watches with solar power generation

Should you buy solar-powered watches?

As more embrace the power of solar watches, however, one can expect them to proliferate accordingly. You still have plenty to choose from in the meantime, including an impressive number of solar watches. There's also TAG Heuer's new solar-powered Aquaracer to consider, plus brands like Casio, Citizen, and Seiko.

What are solar-powered watches?

Solar-powered watches, as the name suggests, are watches that use solar energy to power themselves. The batteries of these watches charge via the usage of solar power or any light source, so they're always in working condition regardless of the situation. Designed for a variety of situations and lifestyles.

What makes a good solar watch?

What you get with a solar watch is consistency, and in a world where products aren't "made like they used to," the one thing you can guarantee with a quality solar watch is its capability of telling time until the cows come home. Ahead, we pulled together the 11 best solar watches to know about right now.

What are the best solar-powered watches?

Citizen especially is associated with solar power, thanks to their innovative Eco-Drive technology that runs on any light. Eco-Drive movements power the bulk of Citizen's catalog, and as a result, you'll spot a number of their offerings among our list of the best solar-powered watches.

What is a solar power watch?

With solar power watches, a new type of underlying technology enters the fold and brings some key benefits along with it. Inside each model is a small solar panel, which absorbs either sunlight or artificial light and then converts that light into energy. Compared to a traditional battery, a solar-powered battery can last about 10 years on average.

How big should a solar-powered watch be?

Solar-powered watches are no different from their traditional counterparts in that they come in various case sizes. If you want something slim and compact, stick with 40mm or less. Those who think bigger is better should go 42mm and up.
