Who is Ekotek energy?

Ekotek Energy is one of the leading solar products manufacturing company around the world. We focus on offering reliable and cost-effective solar products designed to improve the lives of people who do not have access to the electric grid.

How does connect Saint Helena generate electricity?

At present approximately 75% of the islands electricity is generated from burning fossil fuel (diesel). We have 4 generators which have a total capacity of 5,400kW. Connect Saint Helena Ltd is committed to reducing reliance on diesel power generation by harnessing renewable energy sources.

How can connect Saint Helena reduce reliance on diesel power?

Connect Saint Helena Ltd is committed to reducing reliance on diesel power generation by harnessing renewable energy sources. Renewable energy is cheaper to produce and does not harm the environment. We currently have 12 wind driven turbines located at Deadwood Plain. These turbines provide in excess of 20% of the islands electricity.

How many generators does connect Saint Helena have?

We have 4 generators which have a total capacity of 5,400kW. Connect Saint Helena Ltd is committed to reducing reliance on diesel power generation by harnessing renewable energy sources. Renewable energy is cheaper to produce and does not harm the environment.

Why should you choose Ekotek?

Our products provide powerful illumination as well as the ability to recharge other electronics at the same time, such as mobile phones, tablets, and other communication devices. At Ekotek, we understand that access to power is a basic need for all, and that it is closely connected with human development.
