Eastern Power Solutions in partnership with ASPA broke ground for the American Samoa Solar and Storage project in Pavaia'i this morning! This initiative marks a significant step toward ...

The Solar for Samoa PV project is situated over two locations; Faleata Racecourse (1.4MW AC) is located in the capital city of Apia, while Faeolo International Airport (2.1MW AC) is located ...

Apia, Samoa - 18 November 2024 - A recent study has shed light on the promising demand for rooftop solar energy in households and businesses across Samoa. The study was conducted by the Market Development Facility (MDF), funded by the Australian Department of Foreign Affairs (DFAT) and co-funded by the New Zealand Ministry of Foreign [...]

6 ???· MANILA, PHILIPPINES (10 December 2024) -- The Asian Development Bank (ADB) has signed a transaction advisory services agreement with Samoa's Electric Power ...

South Pacific Island efforts to reduce dependence on costly and polluting diesel fuel continue, with the installation of 546kW of solar PV across the islands of Samoa - the independent state's largest solar project yet.

4 ???· The project is expected to represent a capacity of up to 40 megawatts of solar and 40 megawatt-hours of batteries. According to the ADB, this will be a cornerstone of Samoa's efforts to achieve 70 per cent renewable energy in its electricity mix by 2031.

6 ???· MANILA, PHILIPPINES (10 December 2024) -- The Asian Development Bank (ADB) has signed a transaction advisory services agreement with Samoa's Electric Power Corporation (EPC) to support the development of a solar photovoltaic and battery energy storage systems with installations planned for the country's two largest islands, Upolu and Savai'i.

The 20 MW Solar Farm in Pavaiai is making good progress with the 1st Phase near completion as of Friday 11/8/24. The Power Purchase Agreement (PPA) & partnership between The ...

In an effort to achieve the renewable energy targets for Samoa, EPC seeks to implement two additional Solar & BESS Renewable Energy Generation Facilities (REGF's). To this end, EPC ...

In an effort to achieve the renewable energy targets for Samoa, EPC seeks to implement two additional Solar

Samoa el solar solutions

& BESS Renewable Energy Generation Facilities (REGF"s). To this end, EPC is now soliciting EOI"s from suitably qualified Independent Power Producers

The Solar for Samoa PV project is situated over two locations; Faleata Racecourse (1.4MW AC) is located in the capital city of Apia, while Faeolo International Airport (2.1MW AC) is located approximately 40 kilometres west of Apia.
