How does enerbrain work?

Phone Number +39 011 0438872 Enerbrain turns wasteful buildings into smarter, healthier & more sustainable ones. Our smart retrofit system is the "Energy Brain" for non residential buildings thanks to innovative IoT hardware and powerful algorithms in the cloud to fine-tune energy usage in real time allowing 30% operational savings.

Who is enerbrain?

Enerbrain |9,357 followers on LinkedIn. For an intelligent use of energy |Founded in 2015 within the Innovative Enterprises business incubator of the Politecnico di Torino,Enerbrain has developed energy retrofit solutionsfor large buildings that allow drastic cuts in consumption as well as a significant improvement in internal comfort.

What is enerbrain system?

Compatible with all HVAC systems,Enerbrain system provides the application of plug &play sensorsin the building and a device to act to regulate in real time ventilation,heating and cooling based on the reference parameters: outdoor and indoor temperature,relative humidity,CO2 and occupants in the building connected with powerful algorithms.

How much is enerbrain funding?

28,940 Highlights Total Funding Amount EUR6.8MTotal Funding Amount Unlock for free Contacts 1 Employee Profiles 43 Investors 7 Similar Companies 15 Recent News &Activity Funding RoundAug 2,2021 Enerbrainraised EUR5,200,000 /Series Bfrom Azimut Libera Impresaand 4other investors Discover more funding rounds NewsoAug 2,2021

How can enerbrain save energy?

Thanks to innovative IoT hardware and powerful algorithms in the cloud to fine-tune energy usage in real timeEnerbrain allows operational savings.

Where is enerbrain located?

Enerbrainis located in Torino,Piemonte,Italy. Who invested in Enerbrain? Enerbrainhas 7investors including GELLIFY and Azimut Libera Impresa. How much funding has Enerbrainraised to date?

For an intelligent use of energy | Founded in 2015 within the Innovative Enterprises business incubator of the Politecnico di Torino, Enerbrain has developed energy retrofit solutions for large...

Enerbrain is an Italian startup that offers a comprehensive solution for energy efficiency. The solution consists of independent modules for real-time analysis of environmental data, remote energy management and control of buildings.
