"Not only is the Cube 800 a plug-and-play system, but it is also scalable and will provide customers with a complete hassle-free solar solution that can provide you with enough power to carry most of your residential needs". The Cube 800 is "movable", providing access to tenants of rented buildings.

Solar panels are a revolutionary technology that makes it possible to harness renewable energy from the sun to generate electricity. They are an essential component of photovoltaic systems, which are being used in an increasingly wide range of applications, from homes and commercial buildings to solar parks and remote off-grid systems.
