

The African Development Bank (AfDB), in partnership with the Climate Investment Funds (CIF) and the Government of Mali, has launched the Renewable Energy in Africa: Mali Country Profile. The publication, released on May 7, highlights the country's current inroads in renewable energy as well as opportunities for scaling-up the sector.

The Smart Energy Pathways methodology aims to meet people's energy needs and be compatible with environmental sustainability; promoting diverse, modern and renewable energy technologies at scale. SEPs promote participatory governance that includes all stakeholders involved in the energy decision-makers process.
