

Smart Energy International - a trusted source of information for the global energy sector for the past 25 years - an audience that stretches across the energy transmission, distribution and technology ecosystems, from the smart grids, cities and meters to the policies and innovations that will define the energy transition.

A new partnership between IRENA and the Inter-American Development Bank (IDB) is set to enhance access to finance in the Caribbean and broader Latin American region. Its intention is to support the creation of market conditions that are conducive to renewable energy investments and that facilitate the development of renewable energy projects.

LUCELEC (Saint Lucia) has deployed nearly 12,000 smart meters. DOMLEC (Dominica) is advancing towards a full deployment of AMI, with approximately 3,500 meters ...

This document presents St. Lucia's Energy Report Card (ERC) for 2020. The ERC provides an overview of the energy sector performance in St. Lucia. The ERC also includes energy ...

LUCELEC (Saint Lucia) has deployed nearly 12,000 smart meters. DOMLEC (Dominica) is advancing towards a full deployment of AMI, with approximately 3,500 meters installed so far and the full installation of 27,000 expected by the end of 2011.

Smart Energy International - a trusted source of information for the global energy sector for the past 25 years - an audience that stretches across the energy transmission, distribution and ...

This document presents St. Lucia's Energy Report Card (ERC) for 2020. The ERC provides an overview of the energy sector performance in St. Lucia. The ERC also includes energy efficiency, technical assistance, workforce, training, and capacity building information, subject to the availability of data.

USTDA's assistance will help develop an enabling regulatory environment for renewables and assess the feasibility of implementing six solar-plus-storage microgrids at ...

Saint Lucia's energy transition opportunity provides a win-win situation in which the Government of Saint Lucia supports constituents through cheaper electricity, and LUCELEC continues to profit and provide reliable service. The analytical team supporting the IRP initially examined 14 scenarios for the future energy mix of Saint Lucia,

Saint Lucia's energy transition opportunity provides a win-win situation in which the Government of Saint Lucia supports constituents through cheaper electricity, and LUCELEC continues to ...

Smart energy international Saint Lucia

Castries, St Lucia -- (METERING) -- May 7, 2009 - St Lucia Electricity Services Limited (LUCELEC) is to deploy Elster's EnergyAxis smart metering system in what is the system's first full-scale deployment in the Caribbean.

A new partnership between IRENA and the Inter-American Development Bank (IDB) is set to enhance access to finance in the Caribbean and broader Latin American region. ...

?? We are thrilled to announce that Smart Energy has been entrusted with an EPC Contract by the Saint Lucia Airport and Sea Ports Authority for a groundbreaking project - the construction...

USTDA's assistance will help develop an enabling regulatory environment for renewables and assess the feasibility of implementing six solar-plus-storage microgrids at critical facilities in Saint Lucia. The NURC selected the Colorado-based RMI to carry out the assistance.

The project's unique design reflects Saint Lucia's ambition to transform its energy sector for a long-lasting positive impact on its people. The project is using public finance for geothermal exploration, and will foster private sector investment in ...

3 ??? Smart Energy International is the leading authority on the smart meter, smart grid and smart energy markets, providing up-to-the-minute global news, incisive comment and professional resources.
