We are proud to present our findings on solar investment opportunities in Algeria. This report provides a snapshot of Algeria's business environment and, major macroeconomic trends, while analysing issues related to foreign investment barriers and the country's political situation.

How much does solar power cost in Algeria?

Algeria's Hamdi Eurl won two 80 MW plants and domestic PV panel maker Zergoun, alongside Ozgun, secured 80 MW in Guerara. The 19 projects represent an investment of EUR1.8 billion (\$1.96 billion) and the solar power prices proposed by the bidders ranged from EUR0.54/W to EUR0.81/W, with an average price of EUR0.625/W.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Laguna Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules.

Manufacturing hub

How much energy does Algeria produce a year?

The country has an average of 3,000 hours of sunshine per year and global horizontal irradiation of almost 1,700 kWh/m<sup>2</sup>/year in the north and 2,263 kWh/m<sup>2</sup>/year in the south. Nevertheless, nearly 100% electrified Algeria generates 99% of its energy from domestic gas.
