Wholesale Solar Battery Charger As the name suggests, a solar charger is a charger that employs solar energy to supply electricity to devices or batteries. It can usually charge lead-acid or Ni-Cd battery banks up to 48 V and hundreds of ampere-hours (up to 4000 Ah) capacity.

Power inverters are part of the way of life in Malawi because of the unstable electricity there. Buying a DC to AC power inverter, inverter charger, or solar inverter charger can change the way of life for a Malawian family or business, which commonly deal with three to four hours of power outages per day.

Solar panels, solar batteries, inverters, solar chargers, solar pumps & controllers are duty and VAT free. Please note, our website is currently under construction. As such not every product we stock is currently listed.

Solar panels capture sunlight and turn it into electricity. The inverter changes this electricity to a form that powers your home. Batteries store extra energy for later use.

Danforth Solar, based in Lilongwe, is the appointed distributor in Malawi of prime European products.. This includes Victron Energy Power Products from the Netherlands, LORENTZ ...
