SolarCity Cyprus offers home-to-commercial solar panel installation services. Explore our solar panel options and start benefiting from our solar power solutions.

Why should you choose SolarCity Cyprus?

Once your system is up and running, you will immediately start saving money producing your own electricity. SolarCity Cyprus warrants our workmanship for 10 years. In addition, all solar panels are under warranty for 25 years. Inverters are a cost-effective solution for generating renewable energy that can reduce electricity bills.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

How does SolarCity Cyprus work?

Installations are performed by certified professionals. Schedules and pays for inspection, permits and utility company requirements. Once your system is up and running, you will immediately start saving money producing your own electricity. SolarCity Cyprus warrants our workmanship for 10 years.

Does SolarCity Cyprus offer a free site assessment?

Trust in a reliable and sustainable energy source that reduces your electricity bills and contributes to a cleaner planet. SolarCity Cyprus offers a free site assessment to help you switch to renewable energy. Our expert technicians will inspect your property to recommend the best solar options for your needs.

Does SolarCity Cyprus offer a warranty?

SolarCity Cyprus warrants our workmanship for 10 years. In addition, all solar panels are under warranty for 25 years. Inverters are a cost-effective solution for generating renewable energy that can reduce electricity bills. They convert DC power to AC power to run various appliances and devices, helping users become less reliant on the grid.
