

Solar energy in Burundi

Where is a solar power station located in Burundi?

The power station is located in the settlement of Mubuga, in the Gitega Province of Burundi, approximately 15.2 kilometres (9 mi), northeast of the city of Gitega, the political capital of that country. This power station is the first grid-connected solar project developed by an IPP in Burundi.

What is the solar PV project in Burundi?

The solar PV project in Burundi is a 7.5 MW plant located in Mubuga. Interconnection is expected in Q3 2020, which will increase Burundi's installed electricity capacity by 14%.

What does Burundi's solar plant announcement mean for the energy sector?

According to Geoff Sinclair, Managing Director of Camco Clean Energy, which manages REPP: "Once built, the solar plant will add nearly 15% to Burundi's generation capacity using clean energy." (This passage directly answers the question about the impact on the energy sector.)

How many people were hired to operate Burundi's solar power station?

Another estimated 25-50 people were hired to operate the power station. In May 2023, Evariste Ndayishimiye, the president of Burundi, toured the solar farm and personally gave his approval for the power station's capacity to be expanded to 15 megawatts.

Who toured Burundi's solar farm in May 2023?

In May 2023, Evariste Ndayishimiye, the president of Burundi, toured the solar farm and personally gave his approval for the power station's capacity to be expanded to 15 megawatts. ^a b c d e Jean Marie Takouleu (26 October 2021).

What is Gigawatt Global Burundi's Power Purchase Agreement (PPA)?

A 25-year power purchase agreement (PPA) governs the sale of electricity between Gigawatt Global Burundi SA and REGIDESO. The engineering, procurement and construction (EPC) contractor was Voltalia of France, which was also awarded the operations, management and maintenance contract.

This pioneering solar project, proudly supported through UK international climate finance, has increased Burundi's generation capacity by over 10% and is helping propel the country ...

Solar energy in Burundi

Burundi, a small, landlocked country in East Africa, is one country that is on the verge of a renewable energy revolution. Burundi is positioned to lead the region in solar energy development thanks to its abundant sunshine and untapped solar potential; the nation currently has roughly 17 MW of installed solar PV capacity.

President Ndashimiye of Burundi announces the intention to double the country's solar capacity during the ribbon-cutting ceremony for Burundi's first solar field. Explore the significance of this commitment to renewable energy expansion and its implications for Burundi's sustainable development.

Burundi has officially inaugurated the country's first utility-scale solar field, as part of push to leverage renewable energy for improved access to electricity for homes and businesses. The grid-connected 7.5MW solar power plant, located in Mubuga, became operational in 2021.

[Summary](#)[Location](#)[Overview](#)[Financing](#)[Benefits](#)[Expansion](#)[See also](#)[External links](#)The Mubuga Solar Power Station is a grid-connected 7.5 MW solar power plant in Burundi. The power station was constructed between January 2020 and October 2021, by Gigawatt Global Coöperatief, the Netherlands-based multinational independent power producer (IPP), through its local subsidiary Gigawatt Global Burundi SA. The off-taker for this power station is Régie de production et distribution d'eau et d'électricité (REGIDESO), the Burundian electricity parastatal utility ...

President of Burundi Ndayishimiye officially inaugurated a solar power plant near the country's capital on Tuesday together with the CEO of the renewable energy company Gigawatt Global. The solar field, which is in Mubuga in the central Gitega province, has provided more than 10% of Burundi's electricity since becoming operational ...
