Should Bosnia and Herzegovina use more energy?

Bosnia and Herzegovina could do a lot more to use energy efficiently. Electricity prices are kept artificially low and there is therefore limited incentive to make savings. The country is almost four times as energy-intensive as the average in EU countries and has the highest energy intensity in the Western Balkans.

Who is attracting foreign investment to Bosnia & Herzegovina?

The government agency responsible for attracting foreign investment to Bosnia and Herzegovina has successfully pitched the municipality of Grude to Norwegian renewables company Greenstat. Bosnia's Foreign Investment Promotion Agency (Fipa) said last week that the Bergen-based developer has started working on the 45 MW Petjnik solar plant.

The government of the Federation of Bosnia and Herzegovina's Canton 10 has signed concession agreements for the construction of two utility-scale solar projects, which will rank among the ...

The International Renewable Energy Agency (IRENA) estimates that Bosnia and Herzegovina had 53 MW of grid-connected solar capacity at the end of 2021.

Two international consortiums plan to invest a total of EUR 160 million in two solar power plants in the municipality of Sokolac in Bosnia and Herzegovina (BiH). At the same time, the Central Bosnia Canton has invited ...

IRENA's report found that if Bosnia and Herzegovina complied with EU legislation - underpinned by the major target of 42.5% of renewable energy generation by 2030 - as a member state there ...

This Bosnia and Herzegovina Solar Production Report provides comprehensive insights into the statistics and developments of the solar energy industry in Bosnia and Herzegovina.

Over the next three to four years, Bosnia and Herzegovina is set to significantly boost its renewable energy capacity, with plans to install solar power plants totaling 1,500 MW and wind farms adding 700 MW.

Solar energy is a promising sector in Bosnia and Herzegovina, with huge untapped potential. While the sector

faces numerous challenges, the recent regulatory improvements coupled with the country's abundant sunlight resources create a favorable environment for investment.

Bosnia and Herzegovina (BiH) follows the global trend of strong growth in the installed power of solar photovoltaic power plants. According to the preliminary data, the total power of these ...

Two international consortiums plan to invest a total of EUR 160 million in two solar power plants in the municipality of Sokolac in Bosnia and Herzegovina (BiH). At the same time, the Central Bosnia Canton has invited bids for a concession for two photovoltaic power plants in the municipality of Bugojno.

Bosnia and Herzegovina (BiH) follows the global trend of strong growth in the installed power of solar photovoltaic power plants. According to the preliminary data, the total power of these power plants

Over the next three to four years, Bosnia and Herzegovina is set to significantly boost its renewable energy capacity, with plans to install solar power plants totaling 1,500 MW ...

Scaling-up Solar PV in Bosnia and Herzegovina October 020 1. Introduction Bosnia and Herzegovina has applied for membership of the EU. Once the country joins the EU it will need to adopt the EU Climate Acquis in its entirety, which will result in significant changes in incentives in the power sector.
