

What can you do with a solar energy degree?

Annual field trips are arranged to visit a number of different renewable energy companies. One company that supports the degree is Mackies, the ice-cream and crisps manufacturer who currently have the largest solar panel setup in Scotland.

What is a 12 month electrical engineering course?

These principles are taught alongside studies in electrical engineering, including power electronics, electrical machines, and power systems. This 12 month course will give you advanced coverage of the specialist engineering skills required by an engineer working in electrical technology for renewable and sustainable energy systems.

What is a sustainable electrical engineering course?

This programme has been designed to meet the industrial demand for the training and education of both existing and future engineers in the advanced concepts of sustainable electrical power and energy generation. Your course aims to give you a broad insight into the design, regulation and management of power systems.

What is a power system management course?

Your course aims to give you a broad insight into the design, regulation and management of power systems. You'll learn about supply chain management, power electronics and energy management.

What can I do with a degree in power engineering?

With specialised knowledge, you'll be highly sought after in a range of sectors. Employers in the power engineering industry, network operators, equipment manufacturers, and consulting firms will be highly interested in your skills. Many graduates also opt to pursue doctoral research in the UK or overseas. Course Director: Visit the website.

Which MSc graduates are eligible for CEng registration?

Accredited MSc graduates who also have a BEng (Hons), accredited for CEng, will have satisfied the educational requirement for CEng registration. A group of Electrical Engineering students have successfully restored a dormant piece of simulation technology to aid future research and innovation at Staffordshire University.
