Can you sell solar energy back to the National Grid?

Householders and businesses with solar panels installed, who generate more renewable electricity than they need, can sell energy back to the National Grid under the Smart Export Guarantee (SEG). An increasing number of people are now benefiting from this government-backed initiative, and you could be one of them.

How can a home owner make money from selling solar energy?

Earn money: Homeowners can earn money by selling back electricity to the grid in the UK through programs like the Smart Export Guarantee (SEG). Reduced carbon emissions: Selling excess solar energy back to the grid can help reduce the need for fossil fuels and decrease carbon emissions.

Can you sell solar energy through SEG?

No, at the moment, the only option for homeowners is to sell excess solar energy back to the grid or store it using battery storage for future use. Are there special requirements to sell energy through SEG? Yes, The SEG requires your solar panels to be under 5MW capacity and you must have an MCS certificate for installation.

How much money can you make selling solar power back to the grid?

Consulting with a professional solar installer is recommended for a seamless setup. Homeowners in the UK can potentially earn between £80 - £165 annually by selling solar power back to the grid. The exact amount varies based on the system's size and the tariffs offered by energy suppliers.

Should you sell unused solar energy?

Storing can lead to cost savings, increased energy independence, reduced carbon emissions, and improved efficiency. On the other hand, selling unused electricity can earn homeowners money, further reducing carbon emissions and contributing to grid stability. How do you Maximise your Solar Panel Renewable Energy?

How do I sell excess electricity generated by my solar PV system?

To sell excess electricity generated by your solar PV system, you need to apply directly to a licensed SEG tariff supplier. Your SEG licensee doesn't have to be your current top-up electricity supplier. You can choose different companies for SEG payments, electricity supply, and gas supply.
