

Created in 2007 on Reunion Island, the Indian Ocean subsidiary today boasts a wide variety of solar farms. Here, it started the Group's first agrivoltaics plants, as well as the Aquanergie; ...

Réunion Renouvelables propose des kits photovoltaïques; des prix compétitifs. Ces kits sont également accompagnés d'un service d'installation professionnel, garantissant une installation sûre et efficace.

EDF Renewables built and operates three solar power plants on the island of Reunion: Saint-Pierre (4 MWp) and Sainte-Rose (10.5 MWp) commissioned in 2009, and now Rivière des Galets (4.6 MWp ), just inaugurated.

Optimisez votre consommation énergétique avec Austral Groupe Energie, leader des installations photovoltaïques; la Réunion, le Maurice et Hauts de France. Revendeur exclusif Solax Power pour des solutions sur mesure.

With a 36,8 MW installed capacity in 2021, Albioma is the leading producer of photovoltaics in Réunion Island. These photovoltaic power plants are all located in areas where there is no conflict of use, such as La Star, which was built on ...

Reunion, June 29, 2022 - EDF Renewables continues its deployment on the island of Reunion with the start of construction on the ground-mounted solar power plant at Rivière des Galets, ...

Découvrez avec Austral Groupe Energie des solutions haut de gamme en installations photovoltaïques et isolation écologique; la ouate de cellulose. Exclusif revendeur Solax Power, nous offrons des services sur mesure; la Réunion, le Maurice et en France métropolitaine.

Le Port, October 27, 2023 - EDF Renewables inaugurates the Rivière des Galets solar power plant in Réunion. Located on a former "wild" landfill, it helps to give a second life to this site. It ...

With high reliable prediction and energy management software, the plant will feed in the Reunion Island grid a no-intermittent renewable energy. This solar power plant is a world first and paves the way for a new era of photovoltaic predictable, stable and available.

Solar thermal collectors and photovoltaic (PV) systems are already widespread in La Reunion. 70% of households are equipped with solar domestic hot water and PV represented approximately 25% of the total installed capacity of electricity generation in 2022.

Le Port, October 27, 2023 - EDF Renewables inaugurates the Rivi  re des Galets solar power plant in R  union. Located on a former "wild" landfill, it helps to give a second life to this site. It will provide the equivalent of the annual electricity consumption of 4,500 people in renewable energy, or 14% of the population of the commune of ...

Created in 2007 on Reunion Island, the Indian Ocean subsidiary today boasts a wide variety of solar farms. Here, it started the Group's first agrivoltaics plants, as well as the Aquanergie technology and the first battery storage solutions which have given Akuo sound expertise in Non-Interconnected Zones (NIZ).

D  couvrez avec Austral Groupe Energie des solutions haut de gamme en installations photovolta  ques et isolation   cologique    la ouate de cellulose. Exclusif revendeur Solax ...

With a 36,8 MW installed capacity in 2021, Albioma is the leading producer of photovoltaics in R  union Island. These photovoltaic power plants are all located in areas where there is no conflict of use, such as La Star, which was built on a landfill site that was still in operation.

Reunion, June 29, 2022 - EDF Renewables continues its deployment on the island of Reunion with the start of construction on the ground-mounted solar power plant at Rivi  re des Galets, in the commune of Port. With an installed capacity of approximately 5 MW, this new project contributes to achieving the island's energy autonomy objective.

Solar thermal collectors and photovoltaic (PV) systems are already widespread in La Reunion. 70% of households are equipped with solar domestic hot water and PV represented approximately 25% of the total installed capacity of electricity ...
