Solar pv arrays Cayman Islands

decades of clean energy generation with minimalist aesthetics. Upgrade your electrical infrastructure with the Micro-Air Easystart system .

The 5MW Solar Farm is the first commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.

Significant improvements are being made in the solar energy industry every year, and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways, namely solar photovoltaic (PV), which converts sunlight into electricity, and solar thermal, which heats water.

we install solar panels With our experience in undertaking close to 500 installs in the region ProSolar has gained considerable experience with the idiosyncrasies facing us in the Caribbean. WE SELL ELECTRIC CARS
