Our Interested Parties are our Strategic Partners.

What are the advantages of solar energy in Oman?

The ability to produce electricity of the grid is a major advantage of solar energy for people who live in the remote and rural areas of Oman. Electricity produced from diesel powered generators and the cost of installing power lines are often exorbitantly high in these areas and many have frequent power-cuts. 6.

Is Oman a good place to invest in solar?

Oman benefits from some of the highest solar radiation levels in the world and is well placed to take advantage of the transition to renewable energy. A pilot scheme to install roof top solar in the first 3,000 homes in Muscat is underway with a full roll out of the scheme expected by the end of 2020.
