

Somalia solar business

Why is solar funding important in Somalia?

This form of funding, which allows small, regular, phased out payments, has been particularly critical in Somalia as it allows micro, small and medium size businesses to overcome the hurdle of high upfront costs associated with acquiring quality solar systems to address energy challenges.

Can businesses use electricity in Somalia?

"As businesses, we were only allowed to use electricity to keep the lights on and sometimes charge our mobile phones." It was not enough that electricity supply was unreliable; at 35.3%, Somalia's electrification rate trails the East Africa average rate of 39.8% and the Sub-Saharan Africa average of 47.7%.

What is the World Bank doing about solar power in Somalia?

The World Bank's Somalia Electricity Access Project has deployed \$3.0 million towards electrification of households and businesses through standalone solar home systems, and the Bank is using an additional \$1.0 million to facilitate analytical work for enabling electrification through solar-powered hybrid mini-grids.

What telecommunication companies are in Somalia?

Prominent Somali telecommunications companies include Somtel Network, Golis Telecom Group, Hormuud Telecom, Somafone, Nationlink, Netco, Telcom and Somali Telecom Group. Hormuud Telecom alone grosses about \$40 million a year.

What is the Somali business Catalytic Fund (SBCF)?

The change of fortunes has been made possible through the Somali Business Catalytic Fund (SBCF), a \$13 million matching grant operation under the World Bank-supported Somali Core Economic Institutions and Opportunities Project (SCORE).
