

# South Sudan climate controlled outdoor cabinet

What is a climate controlled outdoor equipment cabinet?

Our floor or pad mount climate controlled outdoor equipment cabinets are ideally suited for Macro Cell Site and Centralized Radio Access Network (CRAN) applications. AZE has developed a line of solutions to assist these deployments with rugged and compact enclosures for today's dynamic cell site needs.

What are climate controlled cabinets & enclosures?

Our climate controlled cabinets and enclosures feature built-in air conditioners, heaters, and thermostats and are ideal for mounting electrical and electronic equipment both indoors and outdoors. The enclosures are designed to provide protection from rain, sleet, snow, ice, dirt, dust and debris.

What is an outdoor Telecom cabinet enclosure with air conditioner?

The outdoor telecom cabinet enclosure with air conditioner realizes heat absorption and cooling through compression refrigeration, and transfers the heat emitted by the equipment in the cabinet to the outside of the cabinet in a closed environment of the cabinet. Our outdoor Telecom Enclosures are widely used in the area of:

What are outdoor cabinets used for?

Our outdoor cabinets are widely used in telecommunications, signaling, traffic control and test & measurement applications. Combine various standard components to create an outdoor enclosure that meets your needs. Configure Now!

Why should you choose a Cran outdoor equipment cabinet?

Cell site equipment has gotten smaller and more efficient over the years, and movement towards CRAN architecture further reduces the footprint. Our floor or pad mount climate controlled outdoor equipment cabinets are ideally suited for Macro Cell Site and Centralized Radio Access Network (CRAN) applications.

Are outdoor cabinets safe?

They're even tough enough to resist vandalism. Your sensitive electronic equipment will stay safe and continue to run reliably thanks to the cabinets' shock- and vibration-proofing and their efficient thermal management. Our outdoor cabinets are widely used in telecommunications, signaling, traffic control and test & measurement applications.

South Sudan is still in a fragile state between war and peace. In February 2020, after a two-year process, parties to the ongoing conflict led by President Salva Kiir Mayardit and former First Vice President Riek Machar finally agreed to implement the 2018 Revitalized Agreement on the Resolution of the Conflict in South Sudan (R-ARCSS).

In response, the cabinet nod at a memo and urged minister of finance to release previously approved \$72 million for formation of mineral trading centers. According to an investigation by the Enough Project Team titled "The Criminalization of ...
