How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost? Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

Who owns smartflower solar?

Smartflower is a solar energy company that has its roots in Austria. In 2018, Energy Management Inc. (EMI), a Boston-based corporation acquired Smartflower. Smartflower is an autonomous photovoltaic system that you can install anywhere.

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

What are the different types of smartflower solar panels?

Smartflower is available in 2 different variants: Smartflower and Smartflower+Plus. The Smartflower+Plus comes with a domestic storage battery that can store excess energy for later use. How is Smart flower Different from Regular Solar Panels?

How much does a rooftop solar system cost?

After taking into account the 30% Residential Clean Energy Credit created by the Inflation Reduction Act and other state incentives, the cost comes closer to the \$17,000 to \$20,000 range. Now, let's look at the specifications so we can see how it compares with a traditional rooftop solar panel system.

What is the difference between a rooftop solar system and smartflower?

The biggest difference between a rooftop solar system and the SmartFlower system is that the SmartFlower is ground-mounted. Ground-mounted systems are a great alternative to rooftop solar because you can avoid all of the potential limitations that come when installing a rooftop system.
