

Trinidad and Tobago techno solar power

Who is building the largest solar project in Trinidad and Tobago?

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource to begin construction of the largest solar project in the Caribbean.

What are the solar photovoltaic systems in Trinidad and Tobago?

In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.

Who were the speakers at the Trinidad & Tobago Conference?

Also speaking at the event were David Campbell, President of bp Trinidad and Tobago and Eugene Okpere, Senior Vice President and Country Chair of Shell Trinidad and Tobago, The Minister of Public Utilities Marvin Gonzales and Chairman of T&TEC, Romney Thomas.

Applications which we offer for Solar are grid tie, off grid, standby power (when utility fails). AMBA Energy Limited can design a system to suite your application. While Solar PV is readily available in Trinidad and Tobago, irradiated heat is also available in abundance.
