

Is Uganda a good place to invest in solar power?

Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar PV investment, the government of Uganda introduced model contracts in their investment guides.

How can Uganda scale up solar PV investment?

As part of efforts to scale up solar PV investment, the government of Uganda introduced model contracts in their investment guides. Additionally, IRENA, the Terrawatt Initiative, and leading international law firms also supported Uganda by drafting simplified and standardised templates for solar PV documents that are publicly available.

What is AMEA power doing in Uganda?

Additionally, AMEA Power has entered into an implementation agreement (IA) with Uganda's Ministry of Energy and Mineral Development (MEMD). This marks AMEA Power's first venture in an East African Community (EAC) country and paves the way for potential expansion into wind and battery energy storage projects in Uganda and the broader EAC Region.

In recent years, the solar industry in Uganda has been steadily on the rise, powered by the country's abundant sunshine and a growing commitment to renewable energy sources. As we enter 2024, the market outlook for Uganda's solar ...

Kampala, November 4th, 2022 - TotalEnergies EP Uganda has today signed a Solar project agreement with the Government of Uganda through the Ministry of Energy and Mineral ...

This National Roadmap for Productive Use of Solar Energy (NR-PUSE) has been prepared by the Ministry of Energy and Mineral Development (MEMD) in partnership with the Uganda Solar Energy Association (USEA) and GOGLA, with the financial support of ...

Dubai-based AMEA Power has secured a 20-year power purchase agreement (PPA) for a 25MWp solar project in Uganda, marking its entry into the East African Community ...

To equip energy and business journalists in Uganda with relevant knowledge and information about the renewable energy sector, Uganda Solar Energy Association (USEA) in partnership ...

Kampala, Uganda | THE INDEPENDENT & URN | TotalEnergies EP Uganda is to install 120 Megawatts of Solar Photovoltaic (PV) technology in selected parts of the country. This is a result of an agreement signed by State Minister for Energy Dr Opolot Okasai and TotalEnergies on Friday.

Uganda's Solar Energy production has increased following the addition of 10 MWp to the national grid, with the commissioning of the Bufulubi Power Plant in Mayuge District on 6 th June 2019. The Country's grid-connected Solar PhotoVoltaic portfolio now ...

Uganda's abundant energy resources, primarily sourced from renewables, provide significant opportunities for further development. The country boasts untapped hydropower and solar resources, sizable petroleum deposits, and reserves of key minerals essential for rapidly growing clean energy technologies.

To equip energy and business journalists in Uganda with relevant knowledge and information about the renewable energy sector, Uganda Solar Energy Association (USEA) in partnership with [...]

In recent years, the solar industry in Uganda has been steadily on the rise, powered by the country's abundant sunshine and a growing commitment to renewable energy ...

Kampala, Uganda | THE INDEPENDENT & URN | TotalEnergies EP Uganda is to install 120 Megawatts of Solar Photovoltaic (PV) technology in selected parts of the country. ...

This study brings forth new evidence on household energy demand in Uganda by using the detailed Uganda 2018/2019 Living Standards Measurement Survey (LSMS).

Uganda's Solar Energy production has increased following the addition of 10 MWp to the national grid, with the commissioning of the Bufulubi Power Plant in Mayuge ...

Dubai-based AMEA Power has secured a 20-year power purchase agreement (PPA) for a 25MWp solar project in Uganda, marking its entry into the East African Community (EAC) market. This move sets the stage for potential expansion into wind and battery energy storage projects in Uganda and the broader EAC Region, furthering AMEA Power's ...
