

Uganda hp storageworks modular smart array 1000

What is HP StorageWorks modular smart array 1000?

The HP StorageWorks Modular Smart Array 1000 (MSA1000) is a 2 Gb Fibre Channel storage system designed for the entry-level to mid-range Storage Area Network (SAN). Designed to reduce the complexity, expense and risk of SAN deployment, the MSA1000 is a scaleable, high performance storage system built with investment protection in mind.

How much storage capacity does the HP msa1000 have?

The modular design of the MSA1000 allows the user to easily add storage capacity as needed. With the addition of two HP StorageWorks MSA30 disk enclosures with space for a total of forty-two enterprise-class drives, maximum storage capacity is 12TB.

What is included with the msa1000?

All necessary configuration & management programs are included and there are no unexpected charges for extra licenses as your capacity needs grow or as you attach more servers. The MSA1000 is a member of the HP StorageWorks Modular Smart Array family, delivering industry-leading technology to meet today's demanding and growing storage needs.

What is HP StorageWorks msa1000 San starter high availability kit?

New HP StorageWorks MSA1000 SAN Starter High Availability Kit, a companion piece to the MSA SAN Starter Kit, providing the necessary hardware pieces to insure redundancy. It replaces the two older HA Kits that included StorageWorks Secure Path software.

How do I upgrade the HP StorageWorks msa1000 controller firmware?

From the HP StorageWorks MSA1000 page, select the Software, Firmware & Drivers option. Note: All supported operating systems obtain MSA1000 Controller firmware upgrades from the HP website. Installation instructions are available on the website. On the MSA1000 Controller LCD panel, use the arrow keys to scroll backwards through the messages.

Can the msa1000 be installed in a rack?

The MSA1000 and its options may or may not be factory installed in a rack with add-on controllers, switches, hubs, MSA30 enclosures and hard drives. The MSA1000 may be integrated with 64-bit Integrity and PA-RISC servers or ProLiant or as standalone storage. Options for the MSA1000 carry their own warranty.
