

Procure-to-pay (P2P) software manages the entire procurement process, from purchasing to vendor payments. It helps companies streamline operations and improve efficiency by consolidating tasks into a single, centralized system rather than relying on multiple separate tools.

Western Sahara has limited infrastructure, but the main entry point for exports is through Morocco's ports, such as the Port of Dakhla in southern Morocco, which serves as a gateway to Western Sahara. Goods can be shipped via sea, air, or land depending on the nature and volume of the shipment.

The U.S. recognition of Western Sahara as Morocco's drew criticism from the U.N. and America's allies. African observers have said it could destabilize the broader region, ...

The designations employed and the presentation of the material on the UNCTAD Data Hub do not imply the expression of any opinion whatsoever on the part of the secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.
