A fully sustainable energy system for the Åland islands is possible by 2030 based on the assumptions in this study. Several scenarios were constructed for the future energy system based on various combinations of domestic production of wind and solar photovoltaic power, expanded domestic energy storage solutions, electrified transport, and ...

Inom storskalig landbaserad vindkraft har OX2 genom åren realiserat över 2,4 GW vindkraft och

har idag en stark projektportfölj, vilket etablerar oss som en av de ledande aktörerna inom ...

With that idea in mind, the energy company Flexens saw an opportunity to develop and build a society scale energy system based on renewable energy sources on Åland together with the island government - an archipelago situated in the Baltic Sea with ideal wind and solar conditions.

In combination with innovation, Åland's aspiration is to become a pioneer in green energy in the Nordic countries. Wind power already accounts for 90% of Ålands electricity production. The ...

One family found a way how to create renewable energy for the household by building an energy-efficient house in Jomala, Åland, in 2016. The house was built with the aim of creating a healthy and energy-efficient house that fits a family with children and which is also affordable financially.

Harsh rains, strong winds - and lots of sun. Our design office is located on the Åland Islands, a centre of innovation right in the middle of the Baltic Sea. It was here that the idea of a new way to harness solar energy was born.

Inom storskalig landbaserad vindkraft har OX2 genomfört och realiserat över 2,4 GW vindkraft och har idag en stark projektportfölj, vilket etablerar oss som en av de ledande aktörerna inom förnybar kraftproduktion i Europa. Denna kunskap och erfarenhet tar vi med oss till Åland. Läs mer om vår verksamhet på Åland

Dec 10, 2024 - Private room in villa for \$54. Expect to meet some other travellers here. Residence located in calm area close to Godby, what we locals call "the next town on Åland"; everything i...
